Liberia Shrimp

- ❑ The Liberia shrimp fishery was in the 1980's, one of the most valuable in Africa, with the majority of catches exported to Europe;
- ❑ The fishery has been untouched for the last two decades;
- ❑ Analysis by the International Finance Commission* suggests sustainable landings available of between 700 and 1200 tones a year.

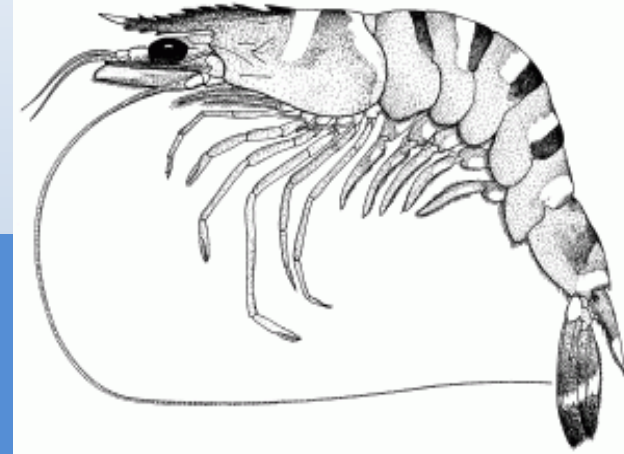

“Exclusive licences available for both inshore and offshore shrimp fisheries”

Available to download from nafaa website at www.nafaa.gov.lr
